

SCIENTIFIC WORKING GROUPS:

Pluripotency and re-programing
Somatic stem cells and development
Basic, translational, applied hematopoiesis
Stem cells in diseases (cancer stem cells)
Stem cells in regenerative therapies
Stem cells in disease modeling and drug development
Computational stem cell biology

STRATEGIC WORKING GROUPS:

Funding programs and policies
Career development
Clinical trials and regulatory affairs
Public engagement and outreach activities
Patient information (stem cell therapies)
Stem cell technologies
ELSA

GSCN HIGHLIGHTS:

Heidelberg GSCN Conference 2016 / Frankfurt GSCN Conference 2015 / Hannover GSCN Conference 2016 / Jena GSCN Conference 2017 / Heidelberg GSCN Conference 2018 / Berlin 2019 / Virtual Conference 2020

Non-PI-Meeting Bonn 2015 – 2020

WunderBar Evening at ISSCR 2015 - 2019 / GSCN Meet-Up Hub

UniStem Day 2016 – 2020: 1000 students in Germany / 30 000 students in Europe

White Paper: International Funding 2016 / Transation 2018 / Organoids 2020

PluriCore – Network of German Pluripotent Stem Cell Cores / Network of science communicators

The GSCN is the network for
basic and applied stem cell research in Germany

The GSCN is **dynamic**
bottom-up
interdisciplinary
quality-driven
connecting

We are a network with 430 members, 18 research institutes and 14 companies (end 2020) – and we strive to thrive:
Join us and be part of the German Stem Cell Network!

MEMBERSHIP

The German Stem Cell Network (GSCN) is a member-driven initiative. Students, Juniors and PIs will be heard. Besides of natural persons also research institutes and companies in the field of stem cell research in the German market are invited to become members and shape the work of the GSCN.

ANNUAL MEMBERSHIP FEE:

Full member	120 €
Junior member	40 €
Institute member	900 €
Company member (< 20)*	900 €
Company member (> 20)*	1800 €

*The fee for company members is depending on the number of fulltime employees.

GSCN

German Stem Cell Network

GermanStemCellNetwork

MISSION

The GSCN aims at creating synergies between all areas of basic and applied stem cell research and to provide an interface between science, education, politics and society as a whole.

About the German Stem Cell Network

SYNOPSIS

The central task of the GSCN is to pool the expertise in stem cell research in Germany and develop synergies between basic research, regenerative medicine and pharmacology. The initiative will promote innovative research activities on a national and international level. In addition, targeted information and events will be offered to encourage the public discourse on stem cell research.

We
are the
GSCN

"A well-organized network bringing together scientists, clinicians and companies from all regions in Germany to foster stem cell research has been lacking for a long time. Now the GSCN has filled that gap and is doing a great job."

Bärbel Icheln, Peprotech

„We have built up an extremely vibrant network.“ Uli Martin, GSCN President 2016

„For me, the GSCN Young Investigator Award is a great signal that encourages me to increase my scientific efforts...“

*Julias Ladewig,
Uni Bonn*

„The GSCN has established itself as an important forum. The network is a central platform on a national level as well as an institution that serves as a contact point for international partners and industry.“ Thomas Rachel, Parliamentary State Secretary of the Federal Ministry of Education and Research (BMBF)

„The GSCN brings together scientists and doctors working in stem cell research and regenerative medicine and helps us master the immense challenges that we face.“

Thomas Braun, MPI for Heart- and Lung Research, Bad Nauheim

„The GSCN rocks...“

Nina Cabezas, Hi-Stem Heidelberg

„The GSCN conference is where the stem cell community comes together“

Andreas Trumpp, DKFZ Heidelberg

“THANK YOU” to the GSCN for giving me the chance to attend this great meeting (ISSCR)."

Mania Ackermann, MHH Hannover, Travel Award Winner

ACTIVITIES OF THE GSCN

- Annual GSCN Conference
- Annual magazine about stem cell sciences in Germany
- Winter School on stem cell research
- GSCN Awards for Young Investigator, Female Scientist and Best Publication of the Year
- Travel awards
- Non-PI-Meetings
- Scientific and strategic working groups
- Workshops & sessions at conferences
- Supporting collaborations, job searching and distribution of science news
- Web-based communication platform for members about stem cell research and related topics
- Outreach activities for students, patients and the interested public
- Public lectures and events on stem cell research and application
- Production of material on stem cell science for the interested public and patients
- Videos about stem cell researchers
