

Dear GSCN members, friends and colleagues,

December 2021

here are some interesting lectures and deadlines before the holidays that we would like to announce.

- 1) BIH/GSCN Lecture online: Matthias Lutolf about organoids - 17 Dec. 2021
- 2) Deadline for Int. Winter School on stem cells in Tübingen - 20 Dec 2021
- 3) Cell pictures wanted for GSCN Annual Magazine - 31 Dec 2021

1) BIH/GSCN Lecture online: Matthias Lutolf on "Engineering Organoid Development" - 17 Dec. 21

Matthias Lutolf, Scientific Director of the Roche Institute for Translational Bioengineering and Professor of Bioengineering at the Swiss Federal Institute of Technology in Lausanne (EPFL) will give the online BIH Lecture (in cooperation with the GSCN) about Engineering Organoid Development. Lutolf will discuss some of his group's ongoing efforts in developing next-generation organoids that are assembled by guiding cell-intrinsic self-patterning through engineered stem cell microenvironments. Please join the lecture online and meet the speaker:

Friday, 17 December 2021

12:00 – 1:00 pm (CET) | BIH Lecture online (chaired by Hans Schöler, GSCN president)

1:10 – 2:00 pm | "Meet the Speaker" with Matthias Lutolf (chaired by Daniel Besser, GSCN)

[Register here](#)

2) Deadline for Int. Winter School on stem cells in Tübingen - 20 Dec 2021

The upcoming Winter School "Stem Cells for Disease Modeling and Regeneration" in Tübingen takes place 7 - 9 March 2022 and includes international speakers as Peter Loskill, Christine Mummery, Andras Nagy, Nikolaus Rajewsky, Lorenz Studer and Barbara Treutlein. Find the program here: <https://stemcellwinterschool.com/>

Registration is open until 20 December 2021. Depending on the number of applications, admittance of PhD students is possible.

3) Cell pictures wanted for GSCN Annual Magazine - 31 Dec 2021

Do you have fascinating, beautiful cell images, that you would like to see published in the GSCN Annual Magazine 2022 in the online and print version? Please send pics in high resolution to [Stefanie Mahler](#) of the GSCN central office – and it would be great if the pictures got there still in 2021. Look at the former editions [here](#).
