[ISSCR Meeting with GSCN Session, WunderBar Evening and Public Outreach](#)

The ISSCR meeting in Hamburg (10 – 13 July 2024) is approaching and the GSCN will have a significant presence at this first global stem cell meeting in Germany. On 9 July 2024, the GSCN will host a [public event \(in German\) on the current state of stem cell research](#) in the main building of the University of Hamburg. In addition to the usual [GSCN Meet-up Hub](#) on Thursday from 15:45 - 16:30h as a meeting point for German scientists, there will be a [GSCN/BIH organized focus session](#) “Strategies for gene and cell-based therapies in Europe” on Friday at 13:30h.

Finally, the WunderBar is a good GSCN tradition: This year as a joint party of Evotec, STEMCELL Technologies and GSCN. Due to the limited space only by personal invitation - but all GSCN members were invited ([what another good reason to become a GSCN member](#)). See you at the ISSCR and at the GSCN events there!
