

Dear GSCN members, friends, and colleagues

November 2024

The GSCN is looking back on a great conference in Jena and looking ahead to upcoming workshops, seminars and a GSCN Conference in 2025. Join us and stay tuned!

1. **GSCN goes Munich: GSCN Conference 2025 from 15 to 17 Oct. in Neuherberg**
2. **Looking back on the GSCN Conference in Jena – what a joy!**
3. **GSCN-PEI Workshop on ATMP in Potsdam**
4. **Berlin Stem Cell Club – a hybrid seminar for all**
5. **Save the date: UniStem Day on 14 March 2025**
6. **Successful GSCN Workshop on Computational Biology in Berlin**

1. GSCN goes Munich: GSCN Conference 2025 from 15 to 17 October in Neuherberg

Save the date: the 2025 GSCN Conference will take place from 15 until 17 October 2025 at the research campus Helmholtz Munich in Neuherberg in a brandnew conference center. The GSCN is excited to plan the upcoming meeting at the “home” of GSCN’s new acting president Heiko Lickert and advises everyone – save these new dates. The upcoming conference website for further details will be online in January.

2. Looking back on the GSCN Conference in Jena in the picture gallery

What a joy to have been in Jena with the GSCN Conference 2024: Around 330 scientists met from 25 – 27 Sept. 2024 at the University Jena, discussed data, gave lectures, made new friends, started new collaborations and networked until late at night. Wonderful. If you would like to refresh your memories of those days, check out the picture gallery here: <https://gscn-conferences.org/gscn-conference-2024/conference-pictures-2024> You might find yourself or someone you know.

3. GSCN-PEI Workshop on ATMP in Potsdam on 28 Nov 2024

The ATMP- Workshop: “The Product is the Process – Is it? Manufacturing and Translation of ATMP and Tissue- & Cell-based products” includes lectures by Ulrike Köhl (Fraunhofer IZI, Leipzig, DE), Sergio Quezada (University College London, UK), Jan Spanholtz (Glycostem, NL), Ilona Reischl (EMA-Cat, NL), Sergio Fracchia (Novartis, Basel, CH), Ruth Offergeld (RKI, Berlin, DE), Silvia Vogl (PEI, Langen, DE), Helmut Lerch (Minaris, Ottobrun, DE).

Date & Time: 28.11.2024 | 09:00 - 17:00

Venue: Investitionsbank des Landes Brandenburg (ILB), Babelsberger Str. 21, 14473 Potsdam
Organizers: bbb e.V., Paul Ehrlich Institut (PEI), the German ZLG, the German Stem Cell Network (GSCN), HealthCapital - Cluster Healthcare Industries Berlin Brandenburg & Berlin Partner

Registration fees: 40 - 240 €

All information: → [here](#)

4. Berlin Stem Cell Club – a hybrid seminar for all

The Berlin Stem Cell Club is a hybrid lecture seminar of the GSCN. Once a month – always the first Thursday if possible – a hybrid lecture is given by an invited speaker and a local scientist on a wide set of topics all around stem cell research. The lectures are given at the TU Berlin and end in a get-together for networking. The hybrid lectures can be followed via Zoom and there is always a vivid discussion. If you want to be regularly informed about the speakers and topics, please subscribe to the BSCC newsletter by writing a mail to Stefanie.Mahler@bih-charite.de (Topic: Subscribe newsletter BSCC). The information is also available on the website www.gscn.org and here: www.gscn.org/conferences-events/gscn-events/berlin-stem-cell-club

5. Save the date: UniStem Day on 14 March 2025

Are you already planning the year 2025? Why not consider hosting a UniStem Day at your institute or university? The upcoming UniStem Day is on 14 March 2025!

The UniStem Day is a special outreach day for high school students, who will visit a research center and join for lectures, lab visits, meet-the-expert tables, engage with scientists as role models and many more options, depending on the institute and its resources. If you are already an experienced UniStem Day-Institute, save the date. If you are new and think about your options, Stefanie Mahler (Stefanie.mahler@bih-charite.de) is happy to share her experiences and ideas with you.

6. Successful GSCN Workshop on Computational Biology in Berlin

The GSCN working group “Computational stem cell biology” organized a very successful workshop about “Computational single cell genomics for stem cell biologists” in Berlin on 7 and 8 November 2025. The participants were very positive about the workshop under the instructor Sara Jimenez. With that feedback and the great interest upfront, the GSCN will organize another workshop in spring 2025. The date will be announced in time in upcoming GSCN newsletters. Stay tuned.

Stay tuned with the GSCN with our newsletter, the website (www.gscn.org), and on [X \(Twitter\)](#) and [LinkedIn](#).

Best wishes, the GSCN Team
