

German Stem Cell Network

on Tour 2024

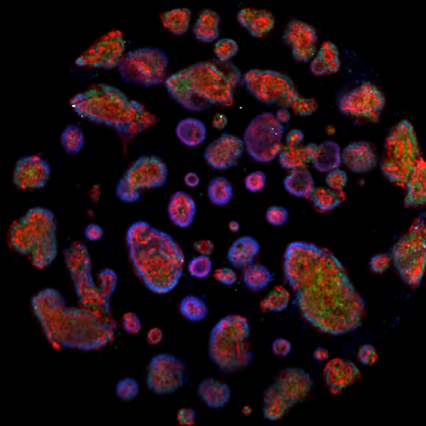

24 April
1:30 – 5 pm
& Reception
MPI-CBG
Dresden

Barbara Ludwig
(University Hospital Dresden)

& Anthony Gavalas (PLID)
"Macroencapsulation of human PS cell
derived islet-like clusters"

Mareike Albert (CRTD)
"Gene regulatory mechanisms
in neural stem cells"

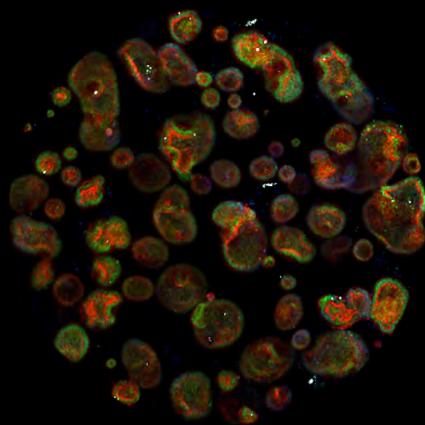

Claudia Ball
(NCT/UCC and DKFZ)

"Patient-Derived Cancer Models for
Precision Oncology and Beyond."

Ingmar Glauche
(TU Dresden)

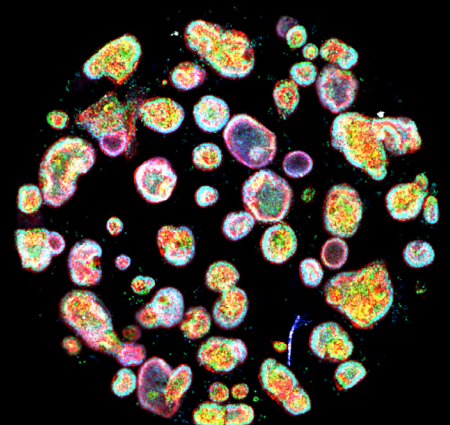

"Clonality in hematopoiesis:
a computational perspective"

Jacqueline Tabler
(MPI-CBG)

"Collagen structure maintains
mesenchymal stem cell fate and
complex nuclear shape in the skull"

Ryan Conder
(Stem Cell Technologies)
"Organoids As Tools For
Drug Development"

Let's talk about stem cell research

The Dresden stem cell community is meeting to present and discuss their research you are welcome to join on site and invited to a social gathering after the talks with drinks and finger food.

The GSCN Stem Cell Day in Dresden is a hybrid event. If you can't come in person, please join online:
